

# Cam iQ

## Advanced video monitoring system for claims management and driver coaching

Cam iQ is a cutting-edge 5G-enabled smart camera system seamlessly integrating all-in-one telematics capabilities. Its intelligent dash camera is supported by a plug-and-play interior camera which offers an in-cabin view, elevating your fleet security.

Suited to a range of applications, Cam iQ can assist with insurance claims negotiations, driver coaching, passenger compartment monitoring and efficient accident reporting.

## Suitable for fleets of any size
